Join JING Bits, Bots, and Math in 2022-2023!

JING Bits is our Computer Programming curriculum. It is designed to give children in grades 1-8 an understanding of the logic behind computer programming through fun programming projects. Our curriculum is aligned with Common Core Math, Common ELS, and CSTA Computer Science Standards, so while your child is having fun creating their new game or their next app, you know that they are also applying valuable academic principles.

JING Bots is our Robotics curriculum. Each year we focus on a different fundamental aspect of Robotics, to give our students the knowledge to understand and reinvent their world. Along the way, they engage in powerful hands-on learning in STEM/STEAM and gain 21st-century skills and mindsets.

JING Math guides children in grades K-8 through Math lessons at their own level and at their own pace through many short, focused, and fun math lessons. This is a great way for your child to catch up, to get ahead, or just to have fun while practicing their math.

Schedule: Each class is held once/week, during either the student's Homework Time or in place of one Wushu class.

Registration and Tuition: Each program is an additional \$35/month.

Please initial by the "JING Electives" on the Tuition sheet in your Registration Packet!
